FOR IMMEDIATE RELEASE

St. Louis, MO – April 1, 2008 – Potter Electric Signal Company LLC., who is owned by a private equity group formed by Two Rivers Associates of St. Louis, Missouri, announced today that its subsidiary, Potter UK Holdings Ltd., acquired Elmdene International Ltd. of Portsmouth UK on March 28, 2008. Tony and Celia Earl and a group of minority shareholders were the previous owners of Elmdene International Ltd.

Bernie Lears, President and CEO of Potter Electric, commented: “This acquisition strengthens Potter’s position in the fire and security markets through a broadened product line, increased international reach and enhanced production and sourcing capabilities. Elmdene also brings a talented senior management team that has grown Elmdene to a leading position in the industry.”

Elmdene specializes in the design and production of sophisticated fire and security detection products such as magnetic contacts, shock and vibration sensors, internal and external sounders as well as a fully comprehensive line of dedicated power supplies utilized in fire detection, CCTV, intruder alarm and access control applications. Elmdene distributes product into the EMEA markets.

Mr. Earl will continue as Chairman of the Board of Elmdene International. Mr. Sean Heskett of Potter Electric will serve as President of Potter Europe and Managing Director of Elmdene International.
