

Features

- 24" Touch Screen - Clear view at angles
- 50 floors w/ one elevator lobby
- Displays events from single FACP fire panel
- Configurable Temps for Normal, Monitoring, Unsafe
- Elevator Control Room Power Fault Monitoring
- Elevator Lobby Smoke Detectors Indicator – one icon represents multiple smoke detectors
- Hoistway light (auto/on or auto/on/off) control
- System Trouble annunciation
- Events list and counters for more detail
- Auto-built graphics require no customization
- Custom logo on screen saver
- Connects to one panel - Direct Ethernet connection, or network card interface
- Maps to FSAE Zones in FACP
- Configure on PotterNet-FOW or import configuration
- Warranty - 1 year

Description

The Floor Overview Window meets stringent standards to provide real-time annunciation of elevator lobby heat and smoke conditions, supporting rapid, informed response during fire events and ensuring the safe, efficient movement of firefighters, first responders, and equipment within high-rise buildings.

The Fire System's Digital Touch Screen Floor Overview Window (PotterNet-FOW) replaces traditional LED displays with an intuitive touchscreen interface, giving firefighters instant visibility into lobby conditions and enabling flexible on-site configuration that reduces ESD time and cost. PotterNet-FOW is UL 864-listed as a Building System Interface Unit (BSIU).

****Note:** PAD-HD Unsafe is adjustable from 135°F to 185°F. All other PAD heat combination detectors are fixed at 135°F for Unsafe.

Technical Specifications

Operating System	MS Windows 11
Enclosure Dimensions	18.5"W x 27"H x 3.5"D
Enclosure Material	Cold Rolled Steel
Display	24" Touchscreen
Processor Specs	• Intel® Core™ i5-8400 • DDR4 16GB
Primary Power	• 24VDC @ 1.25A Steady State • 2.75A Peak at Boot Up
Mounting	Surface
Temperature and Humidity Range	32°F to 120°F (0°C to 49°C) with a maximum humidity of 93% non-condensing
Potter Panel Compatibility	IPA-4000(E)(V), IPA-100, IPA-60, AFC-1000(E)(V), AFC-100, AFC-50, ARC-100
Agency	UL 864 as Fire Alarm Control Unit Annunciator (UOJK.-S735)

FOW Panel Direct Connection

Model	Description	Stock No.
POTTERNET-FOW	24" touch screen Floor Overview Window display & CPU. Surface mount red backbox included. Compatible with IPA, AFC, ARC-100 and PFC-4064 panels UL 864 Listed Software; BSIU hardware and a 1-year software service agreement (SSA) is included.	3995001
